September 2022 - 20XX

Student, Game Developer
Noorderpoort

Work Environmental Skills

- Creative
- Social
- Leadership

2019 - 2019

Seafood Restaurant Landman Help Chef

I had done an internship at Landman for my HAVO education, so I had done several things. Such as, filleting fish, cooking meals and preparing salads for the days and even week.

2022 - 2023

Albert Heijn Box filler

I should have made sure that all the new products for the fresh department were refilled quickly. However, this was difficult in some cases due to busy days, but that quickly turned out well. I was able to learn to work in a stressed working environment.

2023 - 2023

Global Game Jam 2023 - Groningen Programmer

I had participated in January 2023 with the Global Game Jam in Groningen, the end product of the Jam can be seen via my Portfolio.

I was able to learn what it is like to create a functional game in a short time and also to work in a team that also has experience with Game Development.

2024-2024

Global Game Jam 2024 - Groningen Programmer

I participated in January 2024 with the GGJ in Groningen. End product can be seen on the portfolio. Learned some better co-operation with the team within the short time. Managed my team members as well.
